Medium	Marathi
Year of Passing	2018
Percentage	77.2%

## INTERNSHIPS

Interncrwod Iip, March 2023 - April 2023

## PROJECTS

### Core ui dashboard using React js, September 2024 - September 2024

- Complete Dashboard ui using react js

### My pizza (Food delivery App) using React js and redux toolkit, September 2024 - October 2024

- Building a pizza delivery app with React.js and Redux Toolkit provides a great opportunity to learn about state management, API integration, and responsive design. This project not only reinforces fundamental concepts of web development but also results in a practical and engaging application that can serve as a portfolio piece or a base for further development.

### Personal portfolio (React), September 2024 - October 2024

- Personal portfolio using react js animation

### Gym react website, July 2024 - July 2024

- Front-end and ui of react app with location using react js

### Web scrapping and it's application , October 2023 - January 2024

- Web scraping, the technique of automatically extracting data from websites, finds diverse applications in various industries. It improves market research by collecting product data and customer feedback from e-commerce platforms, helps generate leads by pulling contact information from various sources, enables dynamic pricing strategies with price tracking, and facilitates content aggregation by aggregating news and blog posts. In addition, it supports opinion analysis by capturing public opinions on social media platforms, assists with real estate analysis by extracting real estate data and prices, and provides valuable insights into the labor market by collecting job openings and industry trends. In addition, web capture can be used to collect weather data from meteorological websites, making it a valuable tool for research, analysis and decision making in various fields
